CONSENT FOR SERVICES

As a condition of your treatment by this office, financial arrangements must be made in advance. The practice depends upon reimbursement from the patients for the costs incurred in their care and financial responsibility on the part of each patient must be determined before treatment. All emergency dental services, or any dental services performed without previous financial arrangements, must be paid for at the time services are performed. Patients who carry dental insurance understand that all dental services furnished are charged directly to the patient and that she/he is personally responsible for payment of all dental services. This office will help prepare the patient's insurance forms or assist in making collections from insurance companies and will credit any such collections to the patient's account. However, this dental office cannot render services on the assumption that our charges will be paid by an insurance company. A service charge of 1.5% per month (18% per annum) on the unpaid balance will be charged on all accounts exceeding 90 days, unless previously written financial arrangements are satisfied. I understand that the fee estimate listed for this dental care can only be extended for a period of six months from the date of the patient's examination. All fees associated with collections and/ or Attorneys cost will be your responsibility. The undersigned hereby authorizes the doctor to take x-rays, study models, photographs, or any other diagnostic aids deemed appropriate by the doctor to make a thorough diagnosis of the patient's needs. I grant permission to you or your assignee to telephone me at home and leave a messsage. I give my authorization to transfer any records or radiographs to another provider for treatment of my child. I understand that it is my responsibility to advise your office of any changes in the information contained in this form.

I have read the above conditions of treatment and payment and agree to their content.

CONSENT TO PERFORM DENTISTRY

1. I hereby authorize and direct Anthony Antonuccio, DMD and Dilip Dudhat, DMD and or dental auxiliaries of his/her choice to perform the following dental treatment or oral surgery procedures(s), including the use of any necessary or advisable local anesthesia, radiographs (x-rays), or diagnostic aids.

A. Preventive hygiene treatment (prophylaxis) and the application of topical fluoride.
B. Application of protective "sealants" to the grooves of the teeth.
C. Treatment of diseased or injured teeth with dental restorations (fillings and crowns).
D. Removal (extraction) of one or more teeth.
E. Treatment of diseased or injured oral tissues (hard and/or soft).
F. Treatment of malposed (crooked) teeth and/or oral developmental or growth abnormalities.

2. I understand that there are risks involved in this treatment and hereby acknowledge that these risks/s will be explained to me, that I will have an opportunity to ask questions regarding the treatment and the risks, and that Ifully understand the same.

3. I agree to the use of local anesthesia and the use of nitrous oxide/oxygen analgesia depending on the judgment of the doctor/s. Nitrous oxide/oxygen may occasionally produce nausea and vomiting. I am also aware that the nose piece leaves and indentation or ring around the nose which disappears shortly after the procedure. I understand and have been informed of the above risks and complications.

4. I recognize that during the course of treatment unforeseen circumstances may necessitate additional or different procedures from those discussed. I therefore authorize and request the performance of any additional procedures that are deemed necessary or desirable to oral health and well-being in the professional judgment of the dentist.

5. There are possible risks and complications associated with the administration of local anesthesia, sedation and drugs. The most common of these are swelling, bleeding, pain, nausea, vomiting, bruising, tingling and numbness of the lips, gums, face and tongue, allergic reactions, hematoma (swelling or bleeding at or near the injection site) fainting, lip and cheek biting resulting in ulceration and infection of the mucosa. I also understand that there are rare potential risks such as unfavorable reactions to medications in respiratory and cardiovascular collapse (stopping of breathing and heart function) and lack of oxygen to the brain that could result in coma or death. I understand and have been informed of the above risks and complications.

6. ___ I also authorize the doctors to use photographs, radiographs, other diagnostic materials and treatment records for the purposes of teaching, research and scientific publications, and case presentations.

7. ___ I do not authorize the doctors to use photographs, radiographs, other diagnostic materials and treatment records for the purposes of teaching, research and scientific publications, and case presentations

8. I will be advised that the success of the dental treatment to be provided will require that the patient and the parents follow post-operative and post-care instructions of the dentist/s. I agree that the success of the treatment requires that all post-operative and post-care instructions be followed and that regular office visits as scheduled by my dentist and his/her auxiliaries must be maintained.

9. I hereby state that I have read and understand this consent and that all questions about the procedures will be answered in a satisfactory manner; and I understand that I have the right to be provided answers to questions which may arise during and after the course of my treatment.

10. I further understand that this consent will remain in effect as long as I am a patient at Dresher Family Dental Care and **no treatment will be performed prior to authorization from patient, parent or caregiver.**
